

PINES CO. TO BUILD \$100,000 STORAGE PLANT

In preparation for any possible shortage of shipping and the resultant need of large storage facilities in these islands, the Hawaiian Pineapple Company, Ltd., will shortly build a concrete fireproof and damp-proof warehouse on its property at Lualaba, which will cost \$100,000 and cover an area of seven and one-half acres.

The removal of the old buildings which stand on the site to be occupied by the new warehouse has already begun and the construction of the big storage plant will start as soon as the city and county building inspector can pass upon and approve the plans.

Final details in connection with the drawing of the plans are now being completed by the Hawaiian Pineapple Company architects. The contract for the construction of the warehouse has been let to the Pacific Engineering Company and most of the materials are already on the ground.

K. B. Barnes, manager of the Hawaiian Pineapple Company, said today that the growth of the business does not require the new warehouse and further that they were making preparations to have ample storage facilities.

AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old time recipe improved by the addition of other ingredients for about 50 cents. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Adv.

E. A. MOTT-SMITH, member of the board of supervisors, who is now on the island of Hawaii recuperating from his recent illness, notified his office yesterday that instead of returning to Honolulu next Saturday he would remain on the big island until December 18.

POLICE COURT NOTES

Declaring that he had used a knife only in self-defense and after two shots had been fired at him by two Hawaiians, Private E. Lewis, D Company, 25th Infantry, was committed to the circuit court by Judge Harry Irwin, police magistrate, yesterday. Lewis was arrested two weeks ago, charged with having seriously wounded Harry Wilson and Thomas Kahoe at Kakaako. Lewis' defense was that the two Hawaiians attacked him and shot at him and he knifed them to prevent a bad beating.

IF BACK HURTS BEGIN ON SALTS

Flush Your Kidneys Occasionally If You Eat Meat Regularly

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.—Adv.

Dr. Fisher hails from Chicago. He has resided in Germany for more than ten years and had decided to continue his practice there during the war.

INDIGO FROM MICHIGAN.

Advices from Midland, Mich., tell us of the first production of indigo from coal tar in the United States. Says Ellwood Hendrick in "The Pomologist Science Monthly": "One thousand pounds of 20 per cent paste are produced daily, despite the fact that in the last month the duty on dyestuffs was removed from indigo. The annual consumption of indigo in the United States is 1,000,000 pounds. By 1912 the German makers of the coal tar indigo, which is chemically the same as the product of the tropical indigo plants, had driven the natural product from the world's market. The artificial is considered better and more reliable than the natural dye."
